

Candy Factory™

Keep Calm and Eat Candy

Welcome to Candy Factory™, where you can satisfy your sweet tooth right from the production line! If you love candy (who doesn't, really?), this place will feel like heaven. Your job here is simple — match identical candy symbols that pop up on a 5x7 grid and try to explode all the dark stone blocks to earn free spins with multipliers.

While candy is not part of the prize of Candy Factory™, you can potentially win enough to buy yourself a lifetime supply.

Sweets Galore

Instead of regular paylines, you win in Candy Factory™ whenever a horizontal or vertical line forms anywhere on the grid consisting of any three or more matching adjacent symbols. The winning symbols then disappear and are replaced by the ones falling from above. This process repeats until there are no new wins.

Meanwhile, at the beginning of the game, there will be dark stone blocks and exploding blocks at the bottom of the grid. If you manage to destroy these, you'll win six free spins. If you are impatient, you can use the Buy Feature option and force-trigger the free spins round for a portion of your bankroll.

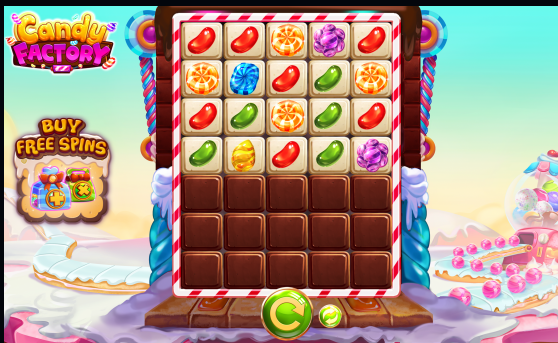

You can choose between three free spin modes. Regardless of the chosen mode, clearing every third full row of dark stone blocks will earn you two extra free spins.

Symbols and Game Specs

Candy Factory™ has six regular candy symbols, two in each low-, mid-, and high-value tier. The rest are special symbols indicating multipliers, extra spins, and exploding blocks. The game also features wilds, which usually appear stacked. The wilds only pay when they become a part of the win after falling to the bottom of the grid.

The game has 5 reels and seven vertical rows and uses cascading reels mechanism. The expected return of Candy Factory™ is 96%.
